JavaTreeView Documentation

Module name: JavaTreeView
Description: Views hierarchial trees
Author: Joshua Gould (Broad Institute), gp-help@broad.mit.edu

JavaTreeView is distributed under the [GNU General Public License](#).

Summary: Reads in files in Eisen's tree view format and displays hierarchial trees. At least one of gtr filename and atr filename files is required. A cdt file is always required.

References:

Parameters:

Name	Description
cdt.filename	Clustered data table (TreeView cdt file)
gtr.filename	Gene Tree file (TreeView gtr file)
atr.filename	Array Tree file (TreeView atr file)

Platform dependencies:

Task type:	Visualizer
CPU type:	any
OS:	any
Java JVM level:	1.4
Language:	Java
